‘The real alternative to small area shot blasting’

The PPT range of hand scarifiers utilise the 3M™ brand of rotopeen™ ‘C’ flaps to offer a captive shot method of surface preparation.

Used with the range of Trelawny TVS dust collectors, the PPT will remove hazardous materials such as lead based paints and contaminated particles rapidly and dust free.

APPLICATIONS

A range of steel and concrete substrates can be cleaned and prepared to provide a keyed surface using these high production tools.

Ideal for the removal of:
- Alkyds
- Mastics
- Adhesives
- Lead based paints
- Coatings corrosion

‘The real alternative to small area shot blasting’
**APPLICATIONS**

- **Nuclear:**
  - Radioactive waste removal and capture
- **Ships decks:**
  - Non-slip coatings
- **Construction:**
  - Plaster removal
  - Ceiling / wall paint removal
- **Factory Floors:**
  - Floor marking removal
- **Swimming pools:**
  - Adhesive removal
- **Bridge maintenance:**
  - Sealant removal
  - Paint removal
  - Sealant removal
- **Pipeline maintenance:**
  - - Protective coating removal

**ACCESSORY RECOMMENDATION PER APPLICATION:**

- **HEAVY SCALING**
  - **Star cutter**
    - Aggressive removal of thick coatings
    - Part No. 312.S200
  - **Beam cutter**
    - Removal of hard coatings, less aggressive than star
    - Part No. 312.R200
  - **3M™ Heavy Duty Rotopeen™ ‘C’ type Flap**
    - Removal of light paint and rust to a bare metal finish
    - Part No. 312.MRPC

RPM for electric version is 2000 RPM

**Injuries Reduction**

- Designates tools & machines designed as standard or with optional attachments for use with Trelawny range of dust collectors for the containment of hazardous & nuisance dust
- Always look for the Vibro-Lo label on tools designed to reduce the risk of vibration related injuries

**Accessories**

- **Pneumatic model 194.C405** 100mm cutting width with star cutters
- **Electric model 195.1220** 50mm cutting width with rotopeen™ ‘C’ Flaps
