

# TFP200 VS COMPETITOR DECK SCALER

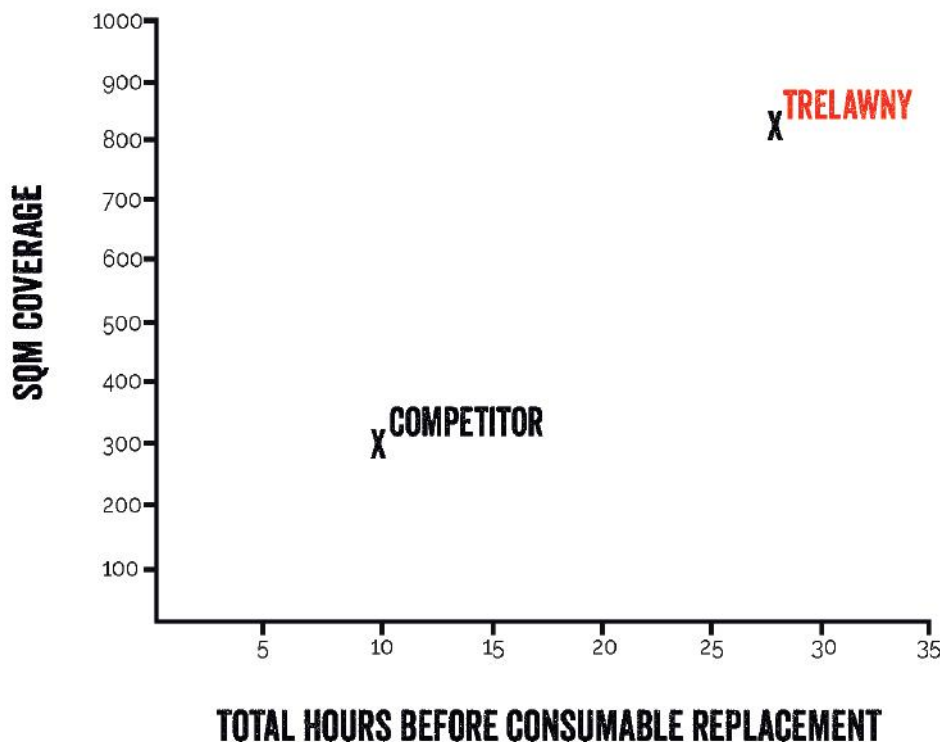

30M<sup>2</sup>  
PER HOUR

£3.68  
COST PER HOUR  
OF OPERATION

50 HOUR  
CONSUMABLE  
LIFE SPAN

## CONSUMABLE LIFE SPAN

## KEY POINTS:

**Depth control:** The TFP200 allows you to control the depth the machine is effecting, meaning you only remove the top layer of coating, minimising any deck damage to your ship.

**Coating removal:** The Trelawny TFP200 is suitable for light, medium and heavy coating removal, whereas the competitor tool is only suitable for heavy duty coating removal.

**Expertise:** Trelawny works with both fleet owners and painting manufacturers, and with combined expertise achieve profiles and efficiencies.

# DECK SCALER

**TFP200 OFFERS:  
DEPTH CONTROL  
DEADMANS HANDLE**

## DATA COMPARISON

TFP200	DATA	COMPETITOR	DATA
Working width	200mm	Working width	190mm
Machine Length	900mm	Length	1320mm
Machine Width	350mm	Width	420mm
Machine Weight	68kg	Weight	94kg
Sqm per hour	30sqm	Sqm per hour	30sqm
Noise emission	95DB	Noise emission	99DB

## KEY POINTS:

**Deployment:** Trelawny's TFP200 is 44% more compact than the competitor deck scaler

**Weight:** Trelawny's TFP200 is 28% lighter than the competitor deck scaler

**Productive:** Both products have a production rate of 30sqm per hour

Major Chandlers offer genuine Trelawny spare parts and consumables, or customers can order from Trelawny directly with ease.
